

Smart Plug

Wi-Fi Connection Instructions

01 Enter Wi-Fi setup mode

Plug in the Smart Plug. The **red light** indicates that the device is **ON**. If it is off, briefly press the **Start button**.

If the **green indicator** flashes rapidly (about **10 times/second**), proceed to Step 2. Otherwise, press and hold the **Start button** for **10 seconds** until the **green indicator** flashes rapidly.

FRONT

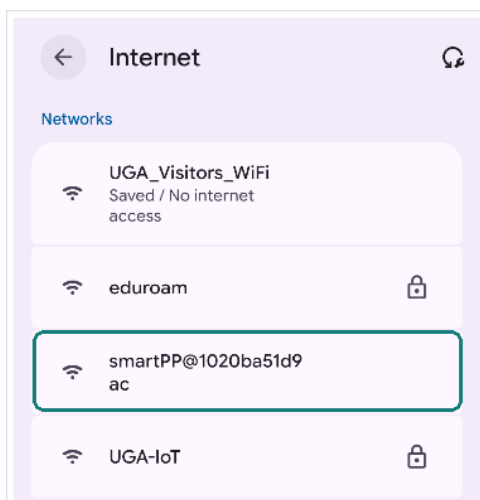

BACK

Start button: round button on the front.

02 Connect to the Smart Plug

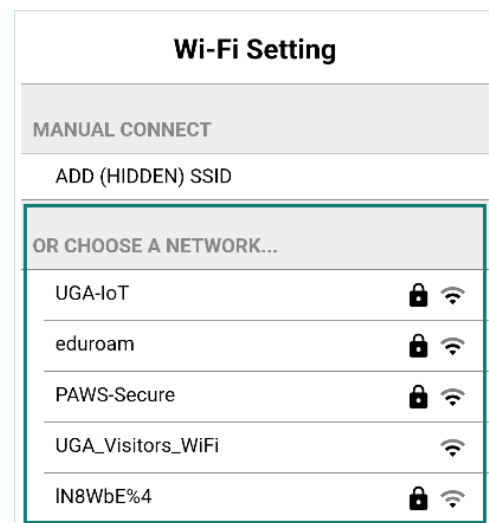

On your mobile device or computer, open **Wi-Fi settings**, find the **Smart Plug network**, and connect to it.

Select the Smart Plug network.

03 Configure Wi-Fi

The Wi-Fi configuration page will open as shown below. Select **your Wi-Fi network** and enter the required **username and password** (or **password only**, depending on your network).

Select your Wi-Fi network.

04 Confirm connection

Look for the **"Success!"** message shown here.

After successful connection, the **green indicator** will flash slowly (about **once every 10 seconds**), indicating that the Smart Plug is **connected and ready for use**.

Example: successful connection.
